OUR MISSION

The mission is to intervene in the lives of school - age youth who are involved with violence, drug and or alcohol use or abuse or gang activity. Youth clients may be involved directly or affected by any of the target areas.

OUR BEGINNINGS

The Youth Intervention Program is a collaboration of eleven government agencies representing the Oak Park and River Forest Communities.

These agencies include: two village governments, two townships, two park districts, two libraries and three school districts.

TARGETED AREAS

Violence

Individuals involved in or are victims of violence.

Drugs/Alcohol Use & Abuse

Youth suspected of dealing in or using illegal substances or consuming alcohol.

Gangs

Youth suspected of involvement or at risk for involvement in an organized group that participates in unlawful acts.

REFERRAL PROCESS

Once referred to the program, an Interventionist assesses the youth's needs. Referrals are typically received from schools, parents, area agencies and peers. Some youth even refer themselves.

An Interventionist conducts an initial interview to gather information necessary to assist in assessing the client's needs. Based on the needs of the assessment, a determination is made regarding follow-up, referral and opening the case as indicated.

CASE MANAGEMENT

Once a case is opened, a youth becomes an active client and a three-step process is followed:

1

Identification and management of any immediate crisis by linking the youth and family with community agencies necessary to diffuse the crisis.

2

Assessment of the environment in order to understand the factors contributing to the increased risk for violence, drug or alcohol use or abuse, or gang involvement.

3

Meeting the needs of the youth via maintenance & ongoing case management in the following ways; assessment follow up, crisis management, counseling, court mandated issues and IEP meetings.
